SUMMARY

Front end JavaScript Developer with over 8 years in the industry. Proficient with React. Used problem-solving aptitude to enhance application performance by 14%. Increased speed of product lifecycle and 100% of the time delivered projects within deadline. Adept at translating design concepts into functional and efficient code, with a strong focus on performance and scalability. Seeking opportunities to contribute expertise to a dynamic development team.

SKILLS

- Strong organizational and time-management skills
- Exceptional communication and interpersonal skills
- Ability to work independently and as part of a team
- Detail-oriented and able to handle multiple tasks simultaneously
- Willingness to learn and adapt to new technologies and best practices

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, Java
- Frontend: React, Redux, HTML5, CSS3, SASS/LESS
- Frameworks: React, Redux,AngularJS, Node , Express, Semantic UI, Angular Material, jQuery,
- Version Control: Git, GitHub, GitLab
- Development Practices: Responsive Design, Cross-Browser Compatibility
- Agile Methodologies: Scrum, Kanban
- Testing : Junit, Postman, Scala, Gatling, Newman
- Additional: RESTful APIs, UI/UX Collaboration, Code Reviews, Performance Optimization

EDUCATION

Calicut University of India

Goverment Engineering College, Thrissur Kerala, India
B-Tech in Computer Science and Engineering
2011 – 2015

PROFESSIONAL EXPERIENCE

QBurst Technologies Pvt Limited , India (August 2015 - Present)

Lead Engineer

- Led the development of complex web applications using React, Redux, and other modern frontend technologies.
- Collaborated closely with design and backend teams to ensure seamless integration of UI components and APIs.
- Implemented responsive designs, improving user experience and cross-device compatibility.
- Optimized application performance through code reviews, refactoring, and performance testing.
- Automated test suit for ecommerce application API's using Postman

Senior Software Engineer - React Developer

- Developed and maintained frontend features for ecommerce portal, resulting in a 30% increase in user engagement.
- Participated in Agile/Scrum ceremonies, ensuring timely delivery of features and addressing any blockers.
- Collaborated with UI/UX designers to implement pixel-perfect UI designs.
- Integrated third-party APIs to enhance application functionality and data visualization.
- Mentored junior developers, providing guidance on best practices and coding standards.

Software Engineer - Javascript Developer

- Contributed to the development of different ecommerce portal using Angular and Javascript, enhancing user self-service capabilities.
- Implemented and maintained reusable UI components, reducing development time for future features
- Collaborated with backend developers to define API contracts and ensure smooth data flow.
- Actively participated in code reviews and provided constructive feedback to peers.
